

## Some Travel Tips for the TCYC Saturna Island Cruise

We would plan would to arrive the day before (Friday, June 30) to facilitate getting anchorage.

If people go over on Friday, it may be a long day but route would be through Active Pass and then onto Winter Cove.

If people go over on the Thursday, possibilities of layover would include Clam Bay (if going through Poilier) or Montague Harbour (if going via Active Pass) or Alder Bay - Commodore Harry Pratt has indicated that arrangements have been made that TCYC members could stay there - thank you, Harry.

Thanks to Jo-Ann Heinz for providing the following information regarding distances/tides:

### ACTIVE PASS

38 NM from Burrard Bridge to Active Pass (assuming 5NM/hr, it will take about 7 hours to get there)

10 NM after Active Pass to Winter Cove
